

Fall leaves collection at curbside

A reminder to residents that our waste disposal contractor will make the rounds of area roads and streets between November 2 and 6, 2015 to collect biodegradable – brown paper or clearly identified biodegradable plastic – bags of fallen leaves. Champlain Township asks that you place your bags at the side of the road before 7 a.m. on November 2 as garbage trucks will not return to your area once they have picked up items on your road or street. Also keep in mind that there is a ten-bag limit to the quantity of leaves to be disposed of. Anyone who has more bags is welcome to drop them off at our municipal landfill site on Saturday mornings (between 9 a.m. and noon) until November 14, 2015.
