

ADVISORY – Spring Flooding in L’Original Ward
(details by [clicking here](#))

Champlain Township advises its residents that the Ottawa River has reached a very high level. We are aware of this situation and our Public Works department has delivered some sand and bags to the garage at 10 Elgin Street (next to the L’Original fire hall) which will be made available to affected homeowners. We ask that residents go to Elgin Street and that the population avoid the area. The Township continues to monitor the situation.
